## The Difference

The common understanding is that the left and right “want different things.” We are pro-life, they are pro-abortion. We believe that God made two distinct genders; they believe there is a near infinite number based on the daily whim of a weird subset of the populace. We believe human rights are universal and a gift from our Creator; they see rights as a social convention subject to change at a moment’s notice. We believe these rights are specific and held by individuals, where they embrace an ever changing separate list of rights for a variety of victim groups. The contention is that the left subscribes to one list and the right to another. But this view is from the perspective of the left exclusively.

The left not only contends that there are a multitude of genders, they prescribe an odd and ever-changing list of pronouns you *WILL* use. The right of various victims’ groups prescribes “reparations” for people of color based exclusively on the hue of their skin having nothing to do with their personal experience of the “repression” they imagine daily. They demand “same sex marriage” and *abortion rights* for all of their imaginary genders. *Etcetera ad infinitum!* It’s a mental disorder.

So here is the real distinction between right and left: The left mandates behaviors while the right allows them. The communist left demands we all live the communist mind set – *all* property belongs to the State and your use of property is dependent on your “compliance score.” The right believes property is individually held, however, if you want to live the communist life style with possessions held collectively, you may, with any other individuals who are willing to pool their assets with yours. You may not, however, mandate unwilling individuals participate in your madness.

**CERTIFICATE OF AUTHENTICITY:** ALL County RPT Sentinels contain this document as certification of its authenticity. “The Sentinel is a product of your local County Republican Party. It is produced with the understanding that the Founders of the United States, authors of both the Declaration of Independence and the U.S. Constitution, had the best vision for our country and wrote the principles of our Constitutional Republic into these two documents. Our agreement with these principles is reflected on the pages of this newsletter. Our Founders believed in citizen involvement and cautioned that this was necessary to maintain a free Republic and limited government. We call upon readers of the Sentinel to hold us always to these standards. It is your responsibility to correct us when we stray. We depend on you and your candor.”

**Election Watch:** Two important elections are coming up in May. May 2nd is School Boards and Bond issues. I should remind you that School Tax is the bulk of your Property Tax Bill. Voting in these elections is a matter of self defense. Does your school district have a reputation of spending the tax payer's money wisely? Do they actually spend the money on what they said they would? Past performance is a predictor of future performance. According to Pete Townshend (The Who), "We won't be fooled again."

There is also a Republican Primary Runoff Election May 26<sup>th</sup>. A change in the rules this year allows those who did not vote in the Primary, to vote in the runoff. So if you missed the Primary, this is your chance to weigh-in. There are 4 races yet to be decided. Remember, you do not have to vote in every race. If you are unsure about a particular race or the candidates in that race, it is OK to skip it and vote on the races about which you feel more confident.

**Primary Runoff Candidates:** (listings are alphabetical by last name)

**Texas Senate:**

John Cornyn

Ken Paxton

**Texas Attorney General:**

Mayse Middleton

Chip Roy

**Texas Railroad Commissioner:**

## Conservative Organizations:

[PragerU](#) - The brain child of talk-show host Dennis Prager, PragerU consists of video clips (about 5 minutes each) on various topics. If you give PragerU five minutes, it will give you an education.

[Act for America](#) - Founded by Lebanese born Christian, Brigitte Gabriel, on the ashes of 9-11, Act's main focus is national security and the threat of radical Islam.

[Grassroots America](#) - Is Texas based and local, meeting monthly in Tyler, Texas. (see [calendar](#) and [organizations](#) ) Founded by Constitutional Conservative JoAnn Fleming, their mission statement is to, "Advance the cause of liberty." Well worth the drive.

[Texas Nationalist Movement](#) - Founded by Daniel Miller, TNM is a secessionist movement taking authority from the Texas State Constitution Article 1 sec 1 & 2. Interested? The local chapter meets in Lindale. (see [calendar](#) and [organizations](#) )

[ACLJ](#) - American Center for Law and Justice - Founded by evangelical minister, Pat Robertson and led by Chief Council Jay Sekulow, ACLJ's mission it to protect religious liberty as provided for by the First Amendment.

[Alliance Defending Freedom](#) - is a legal advocacy group seeking to promote religious liberty in the public domain.

[Texas Eagle Forum](#) - is a decidedly Texas spin-off from Phyllis Schlafly's original Eagle Forum. The focus is on inside Texas politics from candidates to convention. You will find numerous "Hot Topics" relating to concerns in the lone star state.

[Homeschool Legal Defense Association](#) - More than just legal support, HSLDA will help get you started on your homeschooling journey with numerous resources found on their website. If you do get pushback from your local or State government, HSLDA will hook you up with a local attorney experienced in this field and may even help with fees.

[Judicial Watch](#) - shedding light on corruption and malfeasance since 1994. Headed by Tom Fitton since 2003, Judicial Watch covers the issues we all care about.

[The Heritage Foundation](#) - more than just a place to get inexpensive pocket Constitutions in bulk, the Heritage Foundation is a think tank developing policies and strategies to advance conservative ideals.

[Freedomworks](#) - a national grassroots activist organization. Interested in getting involved? Check out the link.

[Daily Wire](#) - a multimedia outlet from Ben Shapiro known for their Facebook content. You will find many favorites from Jordan Peterson to Dennis Prager on this site. Content includes videos, podcasts, articles and more.

## Conservative Organizations continued:

[Condemned USA](#) - a January 6 advocacy group founded by Treniss Evans. On this website read Treniss's story, view the extensive video footage from January 6, get involved. What happens to J6ers going forward is our future, yours and mine. Be the author or the victim.

[True Texas Project](#) - a Constitutionally grounded conservative Christian advocacy group. Best characterized by this statement from their own hand-out: "I am **A TRUE TEXAN**. I am A LEGENDARY BREED. I am PART OF A MOVEMENT. I BELIEVE IN FREEDOM AT ALL **COSTS**. I am AN ACTIVIST, NOT AN OBSERVER. I am **UNSTOPPABLE**. **COME AND TAKE IT.**" I think this sums it up. If you wish to get active and not sit on the sidelines, click the link.

[True the Vote](#) - a cause near and dear to the Sentinel's heart, TTV is a voting integrity advocacy group active across the state. Not only advocating for hand-marked, pre-printed, serialized paper ballots, but also involved in educating citizens about pernicious software. Join their podcasts [here](#).

[Turning Point](#) - Focused on youth and taking back America's campuses. There are chapters across the country. If you have children or grandchildren going off to college, this is the best way to protect your investment from assaults from the left.

[Cpac](#) - Certainly one of the oldest conservative groups. We have all watched a Cpac convention to see our favorite candidates speak. If a monthly newsletter is not enough, sign up for CPAC's email alerts [here](#).

[Convention of States Action](#) – The largest grassroots activist organization in the country, if not the world. The group promotes to state legislatures in all 50 states to call for a Convention for proposing amendments under Article V of the US Constitution in order to limit the power, money and terms of the federal government. This activist army also gets involved in many other conservative causes around the country.

FYI - [Post Texas State Republican Convention 2024](#), 46 Republican House members signed a letter committed to supporting for Speaker, only candidates who pledge to not appoint Democrats to committee chairmanships. What's missing? Cole Heffner's signature!

Donald Trump, 47<sup>th</sup> President of the United States, advocates "No Tax on Tips." Many patrons of restaurants, and other establishments where tipping is common, are noting this on their bill in an attempt to educate those who work in the service industry. Texas US Senator, Ted Cruz, has already introduced the legislation. Could this be the tipping point? DJT also advocates for no tax on OT! Could be the next big thing.

## Conservative Contrasts:

[Rules for Radicals by Saul Alinsky PDF](#) — As good conservatives, we must know our enemy and his tactics. This is the long version (pop some corn). Favored by both Hilary Clinton and Barak Obama, this is the playbook of the left. Why the rules of civil society do not apply to them. [In a Nut Shell](#) The Sentinel uses the term “nut” advisedly here.

[Rules for Deplorables](#) - A primer for fighting radical socialism How President Trump, and a well read conservative, turn the rules on the left.

[The Communist Manifesto](#) - The Sentinel wonders how much profit has been generated selling this book. Ironic? Conservatives don't have a manifesto - its not what we are about. What we have are PRINCIPLES. Principles as detailed in several books and documents.

[The Law](#) – Written in 1850 by Frederic Bastiat in response to the European Marxist movement. His focus, like the American founding, is on the preservation of God-given rights of Life, Liberty and Property. If you have any misunderstanding of individual liberty as given through God's Grace, this will clear it up for you. And you will understand that the only role of “Government” is to resolve conflict between individuals when these three are contested.

Continued from page one

The right believes that marriage is between one man and one woman, however if you wish to “play house” with a person of your same gender, no one on the right is going to forcefully remove one of the participants from your home. One of the silliest episodes of “House Hunters” I ever saw was of a throuple (alleged marriage of three people) who were concerned because they could not locate a property with a master bathroom having three sinks in the vanity! I kid you not, it was a real episode!

The difference between the left and right will not be found by comparing the list of what each considers to be “normal.” Do not waste your time arguing the virtues of one list over the other. The real difference is found in the humanity of each philosophy and their treatment of their fellow citizens. The right is a respectful “live and let live” philosophy which honors and values individual differences, even quirks. The Left is fundamentally totalitarian which is understandable because it denies human nature. Humans will live under leftist rule only when forced to do so because it goes against their human nature. This is why leftist protests often include violence and arson. On the rare occasion the right protests, it usually includes a group volunteering to “clean-up” so that the public place they so gently occupied is left in the same or better condition as when they found it, not a smoldering heap of rubble as when the left is involved. Just ask Seattle!

# Sentinel Library

The Sentinel editorial staff may not agree with every point made in the following literary works. However, for conservatives, true diversity is expressed as diversity of thought, not that of gender identity, race or color. What we do agree on is that you will find true wisdom in the works of these varied authors.

## Recommended Books:

### **Geneva Bible** Recorded by numerous authors

The unerring word of God, you will not find significant textual differences in this and the Bible you may take to church. However, the notes in the margins were the reason for persecution of Christians leading up to the colonization of the Western world. Simple possession of a Geneva Bible was a capital offence. The notes record the scriptural imperative of liberty or “free will” as the Bible refers to it. This is the Bible the Pilgrims brought to our shores. You will find an education in it.
