“Iran Does Not Pose an Imminent Threat”

It may surprise you that I actually agree with the left when they make the above statement. However, this is where the agreement ends. What the *left* actually means is that Iran poses no immediate threat at all. (Who waits until the bear is upon them to put together a plan of survival? It's just silly.) But what *I* mean is that Iran is an ACTIVE threat, current and ongoing; not an imminent one.

It started on day one when the Iranian regime, in its infancy, kidnapped 66 of our embassy employees and held 53 for ransom. It continued with the attack on the Khobar Towers, the attack on the USS Cole, the 9-11 attacks which Iran funded and for which they provided logistical support. And you can bet your boots they are currently funding the takeover of Texas as an expression of dominance, much like their active street prayer vigils block traffic including emergency vehicles. They don't do this in Muslim countries, only in countries they are trying to dominate. Many would have you believe there are clear lines of demarcation between the Muslim Brotherhood, Boko Haram, Hamas etc. However the common thread is Islam. The money and logistics planning which flows through all their terrorist networks make no distinction whatsoever. *We are being played.* We must make a conscious decision not to be stupid in this matter.

There are hundreds of Mosques in Texas, some in counties with a Muslim population of zero! I would give you a precise number (well over 200), but it would go up before the ink dries on this edition of the Sentinel. This is another expression of dominance. This is obviously, an *active* threat! And if Texas and the US do not start recognizing this *soon*, all that will be left is to fit our wives, daughters and granddaughters with a burqa and to find a basket big enough for our fat heads to fall into.

CERTIFICATE OF AUTHENTICITY: ALL County RPT Sentinels contain this document as certification of its authenticity. “The Sentinel is a product of your local County Republican Party. It is produced with the understanding that the Founders of the United States, authors of both the Declaration of Independence and the U.S. Constitution, had the best vision for our country and wrote the principles of our Constitutional Republic into these two documents. Our agreement with these principles is reflected on the pages of this newsletter. Our Founders believed in citizen involvement and cautioned that this was necessary to maintain a free Republic and limited government. We call upon readers of the Sentinel to hold us always to these standards. It is your responsibility to correct us when we stray. We depend on you and your candor.”

Conservative Organizations:

[PragerU](#) - The brain child of talk-show host Dennis Prager, PragerU consists of video clips (about 5 minutes each) on various topics. If you give PragerU five minutes, it will give you an education.

[Act for America](#) - Founded by Lebanese born Christian, Brigitte Gabriel, on the ashes of 9-11, Act's main focus is national security and the threat of radical Islam.

[Grassroots America](#) - Is Texas based and local, meeting monthly in Tyler, Texas. (see [calendar](#) and [organizations](#)) Founded by Constitutional Conservative JoAnn Fleming, their mission statement is to, "Advance the cause of liberty." Well worth the drive.

[Texas Nationalist Movement](#) - Founded by Daniel Miller, TNM is a secessionist movement taking authority from the Texas State Constitution Article 1 sec 1 & 2. Interested? The local chapter meets in Lindale. (see [calendar](#) and [organizations](#))

[ACLJ](#) - American Center for Law and Justice - Founded by evangelical minister, Pat Robertson and led by Chief Council Jay Sekulow, ACLJ's mission it to protect religious liberty as provided for by the First Amendment.

[Alliance Defending Freedom](#) - is a legal advocacy group seeking to promote religious liberty in the public domain.

[Texas Eagle Forum](#) - is a decidedly Texas spin-off from Phyllis Schlafly's original Eagle Forum. The focus is on inside Texas politics from candidates to convention. You will find numerous "Hot Topics" relating to concerns in the lone star state.

[Homeschool Legal Defense Association](#) - More than just legal support, HSLDA will help get you started on your homeschooling journey with numerous resources found on their website. If you do get pushback from your local or State government, HSLDA will hook you up with a local attorney experienced in this field and may even help with fees.

[Judicial Watch](#) - shedding light on corruption and malfeasance since 1994. Headed by Tom Fitton since 2003, Judicial Watch covers the issues we all care about.

[The Heritage Foundation](#) - more than just a place to get inexpensive pocket Constitutions in bulk, the Heritage Foundation is a think tank developing policies and strategies to advance conservative ideals.

[Freedomworks](#) - a national grassroots activist organization. Interested in getting involved? Check out the link.

[Daily Wire](#) - a multimedia outlet from Ben Shapiro known for their Facebook content. You will find many favorites from Jordan Peterson to Dennis Prager on this site. Content includes videos, podcasts, articles and more.

Conservative Organizations continued:

[Condemned USA](#) - a January 6 advocacy group founded by Treniss Evans. On this website read Treniss's story, view the extensive video footage from January 6, get involved. What happens to J6ers going forward is our future, yours and mine. Be the author or the victim.

[True Texas Project](#) - a Constitutionally grounded conservative Christian advocacy group. Best characterized by this statement from their own hand-out: "I am **A TRUE TEXAN**. I am A LEGENDARY BREED. I am PART OF A MOVEMENT. I BELIEVE IN FREEDOM AT ALL **COSTS**. I am AN ACTIVIST, NOT AN OBSERVER. I am **UNSTOPPABLE**. **COME AND TAKE IT.**" I think this sums it up. If you wish to get active and not sit on the sidelines, click the link.

[True the Vote](#) - a cause near and dear to the Sentinel's heart, TTV is a voting integrity advocacy group active across the state. Not only advocating for hand-marked, pre-printed, serialized paper ballots, but also involved in educating citizens about pernicious software. Join their podcasts [here](#).

[Turning Point](#) - Focused on youth and taking back America's campuses. There are chapters across the country. If you have children or grandchildren going off to college, this is the best way to protect your investment from assaults from the left.

[Cpac](#) - Certainly one of the oldest conservative groups. We have all watched a Cpac convention to see our favorite candidates speak. If a monthly newsletter is not enough, sign up for CPAC's email alerts [here](#).

[Convention of States Action](#) – The largest grassroots activist organization in the country, if not the world. The group promotes to state legislatures in all 50 states to call for a Convention for proposing amendments under Article V of the US Constitution in order to limit the power, money and terms of the federal government. This activist army also gets involved in many other conservative causes around the country.

FYI - [Post Texas State Republican Convention 2024](#), 46 Republican House members signed a letter committed to supporting for Speaker, only candidates who pledge to not appoint Democrats to committee chairmanships. What's missing? Cole Heffner's signature!

Donald Trump, 47th President of the United States, advocates "No Tax on Tips." Many patrons of restaurants, and other establishments where tipping is common, are noting this on their bill in an attempt to educate those who work in the service industry. Texas US Senator, Ted Cruz, has already introduced the legislation. Could this be the tipping point? DJT also advocates for no tax on OT! Could be the next big thing.

Conservative Contrasts:

[Rules for Radicals by Saul Alinsky PDF](#) — As good conservatives, we must know our enemy and his tactics. This is the long version (pop some corn). Favored by both Hilary Clinton and Barak Obama, this is the playbook of the left. Why the rules of civil society do not apply to them. [In a Nut Shell](#) The Sentinel uses the term “nut” advisedly here.

[Rules for Deplorables](#) - A primer for fighting radical socialism How President Trump, and a well read conservative, turn the rules on the left.

[The Communist Manifesto](#) - The Sentinel wonders how much profit has been generated selling this book. Ironic? Conservatives don't have a manifesto - its not what we are about. What we have are PRINCIPLES. Principles as detailed in several books and documents.

[The Law](#) – Written in 1850 by Frederic Bastiat in response to the European Marxist movement. His focus, like the American founding, is on the preservation of God-given rights of Life, Liberty and Property. If you have any misunderstanding of individual liberty as given through God's Grace, this will clear it up for you. And you will understand that the only role of “Government” is to resolve conflict between individuals when these three are contested.

Continued from page one

It is simply shoveling smoke to ban Sharia Law if we keep the Sharia compliant population which multiplies at a rate which would make a bunny blush. They told us they would defeat us with the wombs of their women. Our enemies have a history of telling us what they are going to do. Tragically, our history is to ignore them. European countries are just beginning to repatriate as many as possible. Is it too late for Europe or for us in the US? That depends on the boldness of the actions we take today.

“But they are so nice!” is a constant refrain of the unthinking and unobservant. You don't think they were “nice” in France, in the UK, in Germany - at least in the beginning? The great push for the modern Islamization of Europe began with Angelia Merkel (the only modern German Chancellor from East Germany) scarcely two decades ago. France, the UK and the Netherlands followed at an astonishingly rapid pace. None of these countries are recognizable by natives today. Nice? The British refer to London as “Stab City” now. Rapes are up exponentially in all these countries because culturally, Islam views women as disposable items for the momentary pleasure of any man who happens upon them. No one is safe. Any deviation from Koranic prescribed norms is met with harsh punishment, often death. When they first arrive they ask us to tolerate, then accommodate, then embrace every edict this death cult has carried with them to every venue they have ever occupied. The longer we wait, the more difficult and painful will be the cure. Keep an eye on Europe. Is their fate ours as well?

I'm more MAGA than most, maybe more so than the President himself. I am not in favor of this ill conceived two week ceasefire or any of its many extensions. To paraphrase Jerry Seinfeld, “They know how to make the agreement, they just don't know how to keep the agreement.” However, much of what the President says is manipulative disinformation not so much aimed at us but in this case, at the Iranian regime or what's left of it. Did he really “give” Iran two weeks to open the Straight or did he need two more weeks to move more assets into the theater? We can only hope! We need a decisive victory coming out of this, not some “negotiated settlement” with congenial liars.

From previous page

Reza Pahlavi, Iran’s best hope to become a free democratic republic and first choice of the majority of Iranians, has suggested that the population take this opportunity to take control of the government which has been weakened by a months of relentless pounding by the US and Israel. Trump has suggested this as well. I would hope that the US could support this effort and I am almost positive that Mossad has contingency plans for just such an event.

It is an accurate observation of many comedians that Asian manicurists (usually Vietnamese) will speak in their native tongue in front of their uncomprehending clientele saying goodness knows what! When questioned as to what they might be saying, the usual retort is, “She say ‘You so pretty!’” American diplomats have encountered similar situations dealing with Farsi speaking Iranian “diplomats.” Some of these American diplomats, who understand Farsi but do not let it be known, know all too well what they are actually saying. Guess what! They don’t think we are “so pretty;” they think we are so stupid. It is imperative that in this case we make sure to prove them wrong.

The stakes in this Iran conflict are the highest since WWII. A negotiated settlement with this regime would guarantee the murder of additional tens of thousands of innocent Iranian citizens simply for seeking God-given human liberty. It would ensure an uninterrupted steady flow of funds to countless terrorist activities around the globe mostly aimed at what they call the “Little Satan,” Israel and the “Great Satan,” the US. It would underwrite the already well established takeover of the great State of Texas. It would ensure the bleakest of futures for our children and grandchildren. We owe it to them to not be stupid about this one. The future Iran must be a free Iran. Our own freedom depends on this.

Islam Takeover Watch

With the Islamic takeover of Texas and the US in full court press, we have instituted this page to record citizen calls for action. Most of the content on this page is taken from social media – what “the people” are saying:

This is Oscar the ostrich. Don't be like Oscar.

The "P" in Islam stands for Peace.

I can't help but wonder what we would find in the "Islamic Learning Center" in Mt. Pleasant Texas?

Taqiyya

ISLAMIC DECEPTION

Muslims are taught to deceive the kuffar (non-Muslim) about their true beliefs in order to defend the cause of Islam and Jihad. This deception is called taqiyya.

Muslims will attempt to disassociate Islam from terrorist acts in order to win sympathy and public opinion, especially in countries where they are outnumbered by non-Muslims. They will say that such an act does not represent the "true Islam", when in fact it does.

Over 60% of the Quran contains verses about killing the kuffar, or forcing them to live under servitude as dhimmi and pay a heavy tax known as Jizya. Dhimmi's must defer to Muslims in all manners whatsoever.

Islamic Sharia law requires all Muslims to pay a charity tithe called Zakat. A portion of Zakat is required to be used to fund Jihadists, such as Al Qaeda, Hamas, Hezbollah, and Taliban. If they truly opposed terrorism, they would not pay the Zakat.

Since 911, Muslims have committed over 23,000 acts of terror. 90% of all terrorist acts are committed by Muslims

Sentinel Library

The Sentinel editorial staff may not agree with every point made in the following literary works. However, for conservatives, true diversity is expressed as diversity of thought, not that of gender identity, race or color. What we do agree on is that you will find true wisdom in the works of these varied authors.

Recommended Books:

Geneva Bible Recorded by numerous authors

The unerring word of God, you will not find significant textual differences in this and the Bible you may take to church. However, the notes in the margins were the reason for persecution of Christians leading up to the colonization of the Western world. Simple possession of a Geneva Bible was a capital offence. The notes record the scriptural imperative of liberty or “free will” as the Bible refers to it. This is the Bible the Pilgrims brought to our shores. You will find an education in it. Navigating the Sentinel:

It is the mission of the Sentinel to be a single, reliable resource for all things conservative in Wood County and the surrounding area.
